## EMPLOYMENT HISTORY

### Junior Software Developer, Applianz Technologies, Wichita KS

*February 2014 - Present*

- Maintain and develop a majority of the code that powers AppEazy, Applianz's application virtualization platform.
- Provide 3<sup>rd</sup> Tier support for customers experiencing difficulties with their hardware and/or software.
- Remotely administer the Ubuntu servers that power the AppEazy solution.
- Rapidly develop the skills needed to maintain and develop Enterprise Desktop Software, such as Object Oriented Application Design, Enterprise Application Architecture, and Database Administration Techniques.

### Web Designer, CCH Wolters Kluwer, Wichita KS

*October 2013 – February 2014*

- Designed and built custom websites for clients in the Tax and Legal accounting field on the CCH Sitebuilder platform using HTML5, CSS3, Javascript, XML, and PHP.
- Provided 2<sup>nd</sup> Tier support for clients experiencing difficult problems with their sites.
- Wrote code to implement new features on the CCH Sitebuilder, such as a Paypal Payments module.
- Improved the template maintenance process by suggesting adoption of a CSS preprocessor.
- Formalized the Search Engine Optimization processes by defining a series of results-producing steps to follow and creating reusable report templates.

### Multimedia Developer, Livy High, Wichita KS

*September 2009 – Present*

- Design promotional graphics for web and print for the band Livy High.
- Designed, built, and maintain a website and social media presence for the band.
